Prof Mohr's
German Fly Paper,

For the sure and certain destruction of FLIES, ANTS, BUGS MOSQUITOS, &c,
Without Danger
to be apprehended from the insects poisoning any thing they may come in contact with after leaving the paper. It is perfectly *simple* and *safe* yet *sure* and *certain* in its action, and possesses a *great advantage over all other poisons in its not being liable to be mistaken*
The above is the only *sure* and *genuine* article ever offered to the public as a DEADLY POISON for the above named pests
As an evidence of its *superior merits* and of the *satisfaction* it has *given to the public* it is only necessary to state that its *sales during the past season* in the NEW ENGLAND STATES alone, was

American Safety Paper
Manufacturing Company of N. Y.
Capital $500,000.
A NICHOLAS President Office 70 Wall st
A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Imitative Counterfeits, Erasures Transfers or Alterations
HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN a celebrated chemist and officer in the British army it is hardly necessary to say that the Paper is recommended by Mr Kent Assayer of the U S Mint, Mr Lyman of the New York Clearing House and Meade Brothers extensive and skillful photographers, 233 Broadway N Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices
Bank Checks—3 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$20 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$20 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb
For wrapping Silks and other fine articles it is excellent, as it prevents moths 40 cts a lb
For Indentures and Agreements 40 cts a lb
All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time
For Southern climates it is excellent and much superior to any other as the moisture of the climate does not destroy it—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths rats and other vermin, which feast on and destroy all other paper now in use
The Company have now in operation Mills in Morris County N J, of about 300 horse power and are able to fill all orders for Paper at the shortest notice
All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No 70 Wall street, New York

The Free Labor Movement in Virginia.

The movement of Mr Eli Thayer's new Land Company for the promotion of free emigration to Western Virginia bids fair to be successful —notwithstanding the alarms raised by the pro slavery papers in Eastern Virginia, and the denunciations and threatenings breathed forth by the creatures of the oligarchy against any man who should dare to come in to Virginia without conceding the blessedness of slavery Mr Thayer and the corporators simply say to the Virginians that theirs is only a business operation—not intended for an abolition movement, but simply an experiment *of benefitting Virginia by the energy and enterprise of free labor*—that they will not use slave labor themselves, but do not intend to interfere with those who wish to use it—that they think they can demonstrate to Virginians themselves the superior efficiency and economy of free labor over slave labor and in so doing can and will inaugurate a new era in the history of the "mother of States and of States men" under which her industry shall revive and flourish, and pristine glory as a leading member of the Republic may in a great measure return Western Virginia in particular is most rich in agricultural and mineral resources and lays moreover in the direct line of communication between the rivers and railroads of the great west and the nearest Atlantic seaports There is already a strong feeling in favor of free labor in that section of the State, and it is probable that a vote might today be obtained west of the mountains for a system of general emancipation which should in ten or twenty years free the State from slavery and the adoption of which would at once place her influence and her votes on the side of the free Republican States but the slave power in Eastern Virginia is yet to powerful for the emancipationists of the West — Mr Thayer's movement however, is received with unexpected favor,—based, indeed upon a view of self interest on the part of the press in Eastern Virginia,—but never the less an encouraging degree of favor If carried out it cannot fail of having a powerful effect upon the future prosperity of freedom in the State

A large meeting of the citizens of Guyandotte Va, held on the 21st of July was addressed by Mr Thayer and at the conclusion, a preamble and resolutions highly favorable to the enterprise were passed

The concluding paragraphs of Mr Thayer's address to the meeting were as follows

You therefore see that the object of this Company is not as it has been represented by some but purely a business association, having a business object in view, and calculated to promote your interests as well as our own It is absurd to suppose that we would come here and bring our wives and children to get into quarrels and difficulties—steal your slaves —or violate your laws in any respect We do not want your slaves—we can do better without them we like engine power better than negro power because that kind of servants don't run off—don't sulk nor tire—it will work night and day without murmuring requires no food and costs less, yet if you prefer negro power we have no right to and never will interfere with your right to employ it — There are two classes of politicians he never admired—those who desired and those who feared a dissolution of the Union, he did not believe it possible, and did not desire it, but if there is danger of such an event, this enterprise is more calculated to diminish than augment that danger as the commingling and uniting in the social and pecuniary relations of the people of the two sections is calculated to unite them more firmly together as one people

In conclusion, Mr Thayer requested that there should be no local jealousies excited in reference to the site that might hereafter be selected upon which to commence their operations and demanded to be informed of the weak point, if any, in this policy, and the use of the hue and cry against them. In answer to a question from the Rev J C Rece, as to how the stock of the Company was raised, he replied, as bank stock is usually raised. The charter authorised them to raise a capital stock of $200,000 to $5,000,000 They met at the Astor House, New York, when the stock was taken in 30 minutes—sixty thousand by Virginians.

The Boston Courier defends the Democratic party against the charge of containing the largest proportion of all the ruffians and rowdies in the country—by repeating at second-hand, the falsehood that "the Republican State Treasurer of Ohio is a defaulter for $700 000 or $800,000" The Courier cannot suppose the reading public ignorant of the fact that the real defaulter was the former *Democratic* Treasurer, and not the recent Republican Treasurer The fault of the latter, as we understand it, was, at most, a concealment of the deficiency until, as he hoped, the old Treasurer, who was a family relative, might make the deficiency good. This was bad enough, and was severely condemned by the Republicans—but it does not reach the extent of actual defalcation, by any means. The Courier, however, is always ready to condemn the Republicans, who, although they do *not* "claim all the honesty of the nation, come as near to a monopoly of that article as the Courier does to possessing even a modicum of fairness and candor Under its present administration, it cannot be denied that the Courier is a good hater, wherever a Republican, a free soiler, an emancipationist or a "nigger" is the object

A waterspout has recently visited the parish of St Eleanor in Canada The first warning which the people had was a noise like that of the sea in a storm, proceeding from a large and dark cloud overhanging the place Soon the cloud seemed to burst, letting fall towards the earth a long train, somewhat in the shape of a funnel, with the small end turned downwards It revolved rapidly, hissing like escaping steam and swinging to and fro, and imitating the contortions of a snake When the small end reached the ground, it lifted and carried away in its revolving impetus whatever it came in contact with Boards, timber, stones and portions of houses were whirled in the air and thrown at a distance with a fearful report — Several houses were thus razed to the ground One horse and three cows were drawn by the power of suction to the waterspout, and after being raised high in the air were let gradually down, they escaped uninjured and were only covered with mud Five carts were carried to a great height and thrown across some fields into the woods, being smashed by the fall — Large trees were uprooted and removed a distance of five acres

A perpetual injunction has been issued against a low concern in New York that took the name of Lovejoy's Hotel, and seduced travellers into stopping there on the reputation of that establishment The court decided that the name of a hotel was in the nature of a trade mark, and was the property of the one who had originally given it a reputation

The potato rot is proving very destructive about New York and farmers are so much alarmed that they are hurrying their potatoes to market

Mr Buchanan's lesser organ at Washington, gives its views on slavery in the following comprehensive and compendious manner

"Now we frankly avow that we wish every Northern man was a pro slavery man on principle and was in favor of planting that institution in all Territories and places where it would be profitable—for when compensatory to the master, it must, of necessity, be beneficial to the slave

SHARP BUT TOO COMMON PRACTICE The N Y Tribune says

"It is stated that somebody or other has recently made $70,000 out of the United States by stepping in between the Government and the owner of a piece of property on Long Island which had been selected by the engineers as a proper site for fortifications in aid of those on Throg's Point The owner asked $120,000 for his land, which the Government thought exorbitant, but while they were higgling with him about it certain speculators—perhaps on a hint from some official quarter—step in, buy the land of the owner for $130,000, and then demand $200 000 of the Government, and get it

The Minnesota Case.

The Democratic revolutionists convened yesterday noon, per adjournment, and were in communion for one hour During the session that long expected document—the report of the committee on credentials—was presented, amounting to fifty four members all told, who may be classified as follows

Regular members with certificates,			43
Bogus do	from British America and vicinity,		6
From St Anthony, without certificates,			4
From Houston,	do	do	1
			54

Of the six Pembina men, one of them, J P Wilson—whom we gave the benefit of a little brief honesty, yesterday morning in not accepting his forged certificate, but who has since swallowed the dose—is a citizen of St. Anthony, and was never in Pembina in his life!—though the Democrats, through Jo Brown, now claim, and have at last convinced *him* that the enlightened Chippewas of that unexplored region have elected him to represent them in the Convention

In addition to the 102 elected under the Enabling Act, they claimed 6 from Pembina—making in all 108—of which number, 64, all they *pretend* to count, are not a quorum — What will they do now?

Some of our city papers are endeavoring to frighten the blight into the potatoes, by recording ominous stories relative to its appearance, but we are happy to hear from various quarters that there is little reason, as yet, for alarm In the course of a few weeks the crop will be beyond danger, and should they continue to thrive as well as during the past month, it will be abundant —*St John New Brunswicker.*

YANKEE, ALL OVER Bayard Taylor says that a Yankee, in walking in St Petersburg, one muddy day, met the Grand Duke Constantine The sidewalk was not wide enough for two to pass, and the street was very deep in filth—whereupon the American took a silver rouble from his pocket, shook it in his closed hand, and cried out "Crown or tail?"—"Crown!" guessed the Grand Duke. "Your Highness has won," said the American, looking at the rouble and stepping into the mud The next day the Yankee was invited by the Grand Duke to dinner.

LOCAL AND MAINE NEWS.

CHARACTER OF WASHINGTON. Mr Everett's lecture, last evening, in Norombega Hall, was truly an eloquent and beautiful tribute to the memory and character of Washington, and it was listened to by a crowded and delighted audience, who showed, by their marked and breathless attention, that the subject was near to their hearts, and that the orator was treating it in a masterly manner

Mr Everett gave a brief account of the times and circumstances which required a Washington—gave a complete history of the life and character of Washington—paid a deserved compliment to his glorious companions of the Revolution—compared him with the great men and heroes of past ages, showing how the character and greatness of Washington exceeded them all—and closed with an eloquent plea for the Union, which the orator said must and would be preserved so long as the name of Washington was dear to every American heart We have not time or space to give an extended notice of the Lecture, and will only say that it did credit to Edward Everett.

We noticed quite a large number of strangers among the two thousand persons present An extra train on the Bangor, Oldtown and Milford Railroad brought in between one and two hundred, and many came from the neighboring towns where there were no public conveyances We noticed upon the Hatch House Register the names of twenty persons from the town of Bucksport, who came on purpose to hear the lecture.

The thanks of the public are due to the gentlemen who procured for them so rich a treat

NICELY GRADED —The First Parish Society of this city, have tried for several years to grade their grounds, and them, and at the same time make the improvement permanent But it has always been too steep, and has slid down during heavy rains During the past few weeks they have re graded it, giving it a greater slope, and sodded it so thoroughly that there can be little doubt that it will now be stationary Street Commissioner Wingate has finished that portion of French street at the foot of the grade, and the appearance of that locality has been greatly improved

SMART HAYMAKING —*Mr Editor* On Monday morning, 3d inst, Mr. William Barnett (colored) of this city, commenced on a field of nine acres of grass in Baskerville, belonging to Mr Ferrel, and mowed, raked and cocked the same, finishing the job on Saturday after noon about 4 o'clock He lost two hours by the rain on Wednesday, and had to open about two tons of the cocks in consequence of their getting wet The field produced over one ton of hay to the acre Beat this who can R

Sometime since an individual went from one of the down river towns into the quiet village of Bradley, announcing his intention of opening a meat shop, whereat the people of Bradley smiled, for a heartier set of men never lived than they are The shop was duly opened, but the gentleman's stock of meat was too small to be visible, and between his shelves were seen sundry curiously formed glasses, the contents of which he was sometimes engaged in selling to very small boys Not long since, we are told, several children left his shop late in the evening, only to find beds for the night in a neighboring gutter! at which the citizens of Bradley turned out in large numbers, destroyed the fellow's liquors, bottles, jugs, &c, and levelled his shop with an adjacent cornfield —*News*

MORMONS MOVING The Boston Journal has a letter from a correspondent at Leavenworth, Kansas, giving an account of the arrival at that place of a party of one hundred Mormons, who had fled from the tyranny of Brigham Young, and the degradation of Mormonism at Salt Lake These people report that nearly a thousand of the "Saints" were preparing to leave Salt Lake when they took their departure, and that four hundred had started for Oregon and the States These deserters from Mormonism are unsparing in their denunciations of its foulness, and report much dissatisfaction in Utah They also say there is danger of another famine in Salt Lake Valley, in consequence of the ravages of worms among the wheat. The Mormons are under thorough military discipline, preparing for a conflict with the United States troops

PROF HARRIS'S ADDRESS The Boston Courier has the following brief synopsis of portions of Professor Harris's address before the Phi Beta Kappa, at Bowdoin

The Maine Alpha of the Phi Beta Kappa Society met this morning, and elected as members sixteen of the class just graduated They then formed a procession and marched to the church, where public exercises were holden

After prayers by the Rev Dr Cleaveland, the Rev. Samuel Harris, D D, of Bangor Theological Seminary, delivered an address — After referring to the constant freshness of being which existed at colleges, where hope was always young, and life was invested with the gold and purple gorgeousness of dawn, he passed to the consideration of a question naturally suggested by the entrance upon life of the recent graduates That question was, How to attend the highest end of life What was necessary to each individual to secure this success was the development and evolution of himself The law of giving, of all external influence, was—"Such as I have I give unto thee" And he who would be rich in gifts must be rich in possessions The end of education consequently was not to perfect a man in his occupation, but to perfect a man by his occupation In every man there was wrapped up the germ of his lifework, more or less clearly defined, and forcing its own development That peculiar individuality of mind and character which prophesied success and ensured it was the undefinable something called genius Necessary, the orator said, to the development of man, were awakening, acquisition and assimilation The man must be awakened to see his duty. The greatest obstacle that truth met with was indifference Man should see the reality of truth, its unity and its relation to himself. The truths of the natural and spiritual world were not mere abstractions—they were facts that encompassed us and would crush us if we did not regard them. It was not enough to know truth—we must acquire it It was not facts that were needed, but the central truth that made these facts valuable This acquisition each man must make for himself. He may use his father's wells, but he must draw the water himself It was frequently the case that a half truth fully acquired was of more value in invigorating a man's life than a whole truth but half acquired When the truth is acquired it must be assimilated and wrought into one's own being We must learn to submit to truth What that submission consisted in was a mooted point, which each man must settle for himself After the soul had been thus developed, there remained for success only evolution, and this was merely, the speaker said, living The man once developed, there remained nothing for him to do but to live—and if he lived out true culture he would ennoble the most trivial duties of life

THE QUEEN AND THE QUAKERESS In the summer of 1818, her late majesty, Queen Charlotte visited Bath, accompanied by the Princess Elizabeth The waters soon affected such a respite from pain in the royal patient, that she proposed an excursion to a park of some celebrity in the neighborhood, then the estate of a rich widow lady belonging to the society of Friends Notice was given of the Queen's intention and a message returned that she would be welcome. Our illustrious traveler, had, perhaps, never before any personal intercourse with a member of the persuasion whose votaries never voluntarily paid taxes to "the man George, called king by the vain ones" The lady and gentlemen who were to attend the royal visitants, had but feeble ideas of the reception to be expected It was supposed that the Quaker would at least say, "Thy Majesty," "Thy Highness," or "Madame."

The royal carriage arrived at the lodge of the park punctually at the appointed hour — No preparations appeared to have been made, no hostess or domestics stood ready to greet the guests, the porter's bell was rung, he stepped forth deliberately, with his broad brimmed beaver on, and unbendingly a costed the lord in waiting with, "What's thy wil, friend?"

This was almost unreasonable "Surely, said the nobleman, "your lady is aware that her majesty—go to your mistress and say that the Queen is here

"No, truly," answered the man, "it needeth not—I have no mistress or lady, but my friend, Rachel Mills, expecteth thee Walk in"

The Queen and the Princess were handed out, and walked up the avenue At the door of the house stood the plainly attired Rachel, who, without even a courtesy, but with a cheerful nod, said, "How's thee do, friend? I am glad to see thee and thy daughter I wish thee well Rest and refresh thee and thy people, before I show the my grounds "

What could be said of such a person?—Some condescension was attempted, implying that her majesty came not only to view the park, but to testify her esteem for the society to which Mistress Mills belonged Cool and unawed, she answered, "Yes, thou art right there The friends are well thought of by most folks, but they need not the praise of the world, for the rest, many strangers gratify their curiosity by going over this place, and it is my custom to conduct them myself, therefore I will do the like by thee, friend Charlotte. Moreover, I think well of thee, as a dutiful wife and mother Thou hast had thy trials, and so has thy good partner I wish thy grandchild well through hers." [She alluded to the Princess Charlotte]

It was so evident that the Friends meant kindly, nay, respectfully, that no offense could be taken The Princess Elizabeth noticed in the hen-house a breed of poultry hitherto unknown to her, and expressed a wish to possess some of these rare fowls, imagining that Mrs Mills would regard her wish as law, but the Quakeress merely remarked with her characteristic evasion, "They are rare, as thou sayest, but if they are to be purchased in this land or other countries, I know of few women likelier than thyself to procure them with ease

Her royal highness more plainly expressed her desire to purchase some of those which she now beheld

"I do not buy and sell" answered Rachel.

"Perhaps you will give me a pair?" persevered the princess

"Nay, verily," replied Rachel Mills, "I have refused many friends—and that which I denied to my own kinswoman, Martha Ash, it becometh me not to grant to any We have long had it to say that these birds belonged only to our house, and I can make no exception in thy favor"

That is a fact —*Sharpe's London Magazine*

A CARELESS SERVANT—DEATH IN CONSEQUENCE —A bright little girl aged about fifteen months, the daughter of Mrs Aurore Allen, residing in West Thirty-eighth street, New York, was almost instantly killed by falling from a fourth-story window, on Monday afternoon last The mother had started to take the 6 o'clock boat for Boston, with her eldest child, leaving two younger children in charge of a servant girl. The girl, soon after her departure, went down into the yard, leaving the children to take care of themselves — The elder finally placed a chair by the window, and looked out, calling the servant, after which she got down and left the room, leaving the babe alone The little thing climbed into the chair, looked out, and in an instant lost her balance and fell to the pavement, striking on her head and causing almost instant death. The sad news reached the mother a few moments before the steamer left her dock, and she returned to clasp only the mangled form of her darling, snatched from her in a moment.

A spicy debate occurred in the House of Commons originating in an address to the Queen promising every support to the government in the Indian difficulty

The yacht Charter Oak had arrived at Liverpool from New York, with only two men on board

Ledru Rollin and others indignantly denounce the charge in the Moniteur that they were engaged in the recent conspiracy

The continental news is unimportant.

Telegraphic advices from Trieste, anticipating the Indian mail, had reached London

The London Times remarks that as Canton is now in the power of Great Britain there seems no substantial reason why this should not obtain for England all the objects of the expedition without further bloodshed or military operations

The mutiny in the Bengal army had increased The insurgents still hold Delhi

The Chinese fleet had been destroyed, after two severe engagements

Foreign margets present no change of importance

Alpine Hair Balm,
—FOR—
Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching and all diseases of the skin This Balm gives the scalp a new and healthy action, restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off composed of Oils, Alcohol and other deleterious materials, and all to no use Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use This Balm is not a Dye Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair and growth will soon appear Growth does not take place at the end of the Hair as will be seen in persons who have had their hair dyed If you examine gray hair that has been colored for a week you will find towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color Each hair has a root in the skin, and is of itself a hollow, gray tube, thro' which there is a constant circulation of the pigment from the root When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray To invent a Balm that would produce this pigment has become the study of the proprietor The discovery of the Alpine Hair Balm will do it It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease

PURIFY THE BLOOD

MOFFATT'S
LIFE PILLS
......AND......
PHOENIX BITTERS.

Free from all Mineral Poisons.

THE great popularity which Moffatt's Life Pills and Phoenix Bitters have attained in consequence of the extraordinary cures effected by their use, renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties Having been more than twenty years before the public, and having the united testimony of more than *Three Millions* of persons who have been restored to the enjoyment of perfect health by them, it is believed that their reputation as the best vegetable medicine now before the public, admits of no dispute In almost every city and village in the United States, there are many who are ready to testify to their efficacy in removing disease, and giving to the whole system renewed vigor and health

In cases of *Scrofula, Ulcers, Scurvy* or *Eruptions* of the Skin, the operation of the *Life Medicines* is truly astonishing, often removing in a few days every vestige of these loathsome diseases by their purifying effects upon the blood *Fever* and *Ague, Dyspepsia, Dropsy, Piles* and in short most all diseases soon yield to their curative properties No family should be without them, as by their timely use much suffering and expense may be saved.

GRINDLE'S
ANCIENT AND CELEBRATED

JAPANESE LIFE PILLS.

NATURE S OWN REMEDY

A positive Cure for Liver Complaint and Bilious Disorders Dyspepsia, Rheumatism, Scrofula Cutaneous Diseases, Fever and Ague, Costiveness Piles, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c, and a sure preventive to all

PULMONIC AFFECTIONS

We offer the ANCIENT JAPANESE LIFE PILLS on a more extensive scale, after we have tested them in the worst forms of disease and after having been urged to do so by eminent physicians, who have tried them to their satisfaction Performing cures where every other remedy had failed we feel it our solemn duty to spread the glad intelligence to every family of the globe *They purge the system thoroughly of all corrupt humors, penetrate and purify the vital fluids, and the corrupt secretions are replaced with rich, healthy blood Parts that were even decaying with disease are restored to a healthy vigorous action, and disease eradicated as if by magic, leaving the system in a robust condition, and less predisposed to contract disease again, of whatever kind* Possessing such penetrating and healing virtues their success must be inevitable WE KNOW IT We can read it in the now glowing features of the once pale and prostrated patient we can read it in the friendly grasp of the father s hand and in the mother's warm tears of joy as they behold their darling child snatched from the clutches of death by their powerful agency, we can read it in the young man s gayety, and in the old man s vigor and 'God bless you', we can read it in the husband s and wife s gratitude, and in the children's prattle; we can read it away out upon the bosom of the ocean in the sprightly tread and invigorated system of the poor mariner Yes, and we sometimes fancy we can almost read it far up in the blue canopy of heaven, in words of living fire —DISEASE IS VANQUISHED—THE TRIUMPH IS COMPLETE

These ANCIENT PILLS are also an *invaluable* remedy for females suffering from suppression of the menses, the cause of so many declines and female weaknesses The various diseases that attack children are quickly banished by their healing qualities

The PILLS are sent by mail, from the Proprietor only, on receipt of the price The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps If we have no agent in your place, send to us by mail

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber having purchased the right of making and selling Dow's Patent Bee Hive for the Counties of Penobscot Lincoln and Sagadahoc which has been received with so much favor and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive has improved is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the promulation and maintenance of the apiary by providing suitable room at all seasons of the year—room to exercise and feed of the bees—convenience for the removal of excrement for the proper separation of the swarms, and generally for the health and comfort of the workers

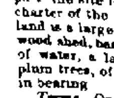

The boxes used in this Hive for storing honey are the best adapted in their size, for the market holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For sale fifty swarms of Bees, with the new hives

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S Patent Office Washington, under the Act of 1837)

No. 76 State Street, opposite Kilby St., BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries Caveats, Specifications Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there are here saved inventors

Testimonials

"During the time I occupied the office of Commissioner of Patents R H EDDY Esq of Boston, did business at the Patent Office as Solicitor for procuring Patents—There were few, if any persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE
Late Commissioner of Patents

[From the present Commissioner]

"August 17, 1855 —During the time I have held the office of Commissioner of Patents, R H Eddy, Esq, of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor He is thoroughly acquainted with the law and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse CHARLES MASON,

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) and 28 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions Nervous Irritability Premature Decay, Loss of Virility Impotency and all diseases arising from early indiscretion

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical surgical or otherwise, to arrest and to cure this awful disease A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars which up to this date could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many

DR CULVERWELL's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice

Full and plain directions for all the different varieties of the complaint accompany Dr Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully Price $2, on the receipt of which it will be forwarded by mail, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 158 Grand-St., New York, Sole Agents for the United States and Canada. Nov. 19 d&wly.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for Pulmonary Complaints, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it does cure consumption, and they now use it in their practice as a standard and sure remedy

There is no remedy equal to it in building up a system, that, under the influence of various diseases hardships, or exposures, has run down or lost its natural tone and vigor Its great secret is in its power to reach the blood, correct the vitiated fluids and arrest the deposit of tubercle in the lungs and it is as safe as it is certain in its action

Some poor sufferer full of anxiety and doubt in regard to what we say, may ask Can your medicine restore a portion of lung that disease has entirely destroyed leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure If the treatment be commenced in season, but little or no portion of the lung is lost It is necessary only to arrest the disease and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed leaving perhaps, a little calcareous substance which is quite harmless and the patient finds himself in possession of whole lungs and sound health But suppose the disease is not arrested at this early stage The softened tubercle produces irritation the irritation brings on inflammation of that part of the lung the inflammation leads to ulceration and the destruction of a portion of the tissue is the result, a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested Now does your remedy effect a cure? Most assuredly it does As soon as the disease is arrested, the hurtful matter is absorbed or expectorated and nature either furnishes the cavity with a lining membrane or what is more common, where it is of large size, its walls fall together and heal up leaving a scar and the remaining portion of the respiratory apparatus true to a law running through the whole physical economy becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost

Price—One box $3 00 three boxes, ordered at one time $8 00, half dozen $14 00, one dozen or any number greater, at the rate of $2,00 a box

The postage in the United States not over 3000 miles, is fifteen cents a box, over 3000 miles, fifty cents a box In all cases the amount should be inclosed in money or stamps I am responsible for all money sent me by mail

DR SMITH'S

SUGAR COATED PILLS!

Prepared and put up by the
New York College of Health.

The most celebrated Medicine in the World,

Recommended by the principal Physicians in all our Cities and by all who become acquainted with their merits throughout the world

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR SMITH'S SUGAR COATED PILLS have saved my life

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested and many eminent Physicians in the United States use them in their practice

Dr J M STURTEVANT, of Lowville N Y a practical physician says "I consider the Sugar Coated Improved Indian Vegetable Pills, as an excellent medicine, and use them in my practice

Dr McVICAR, of Boonville, Oneida Co N Y says "Say to your Agents, I consider them an excellent Pill and use them in my practice

If the Blood becomes impure, it is traced to stoppage of the natural drains of the system viz of the bowels—the lungs, kidneys and skin—The blood and intestines must relieve themselves of all their worn out particles and poisonous humors, which must go through the channels that nature has designed

A MEDICINE THAT NEVER DEBILITATES.

DR SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives It acts slowly and gently but surely moving the bowels to carry off all the secreted matter, at the same time stimulating the Liver to a proper performance of its functions

The Invigorator cures Sick Headache Take one or two teaspoonful at the first attack and it will soon disappear For an overloaded stomach or when food rises or sours take the Invigorator after eating and it will not prove distressing or oppressive For Heartburn, Palpitation or Difficult breathing take a tea spoonful once or twice daily For Loss of Appetite Languor or Listlessness the medicine is invaluable It will restore the appetite and make the food digest well Nightmare take a teaspoonful on retiring and the demons of dream land will all be farred After eating a hearty dinner take a dose of Invigorator it will relieve all oppression or fullness The Invigorator is a Liver Remedy of unequalled virtue acting directly on that organ curing Dyspepsia, Jaundice Bilious Attacks Dysentery Piles Worms and all Female Obstructions for which it has no equal

We know there is nothing now before the American public prepared with such skill by a scientific man particularly for diseases of the Liver as Dr Sanford's Invigorator or Liver Remedy It has attained a reputation second to no other article in the world simply because it rests on its own merit To convince all by trial that it will all that its proprietor claim it to be Try any of our readers are suffering from any such diseases as are described in Dr Sanford's advertisement we know of no remedy that will so surely cure them as the Invigorator

There has lately been brought out not to a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver Stomach and Digestive organs It came to us with many testimonials in its favor that we have noted its effects in some of the worst cases of continual debility caused by deranged liver and in every instance the effect was to give a permanent cure Dr Sanford's Liver Invigorator is what we refer to We always have been credulous about cures by patent medicines but we are convinced that this medicine for family use is not overrated by the host of recommendations it has Or advice is for all troubled with Indigestion Debility or Bowel complaint to get a bottle and try it, our word for it relief will be experienced

Blessings to the Invalids who use Dr Sanford's Invigorator for it will relieve them of their pains as soon as it is taken into the stomach Pain and misery cannot exist where the Invigorator is used Try it and surely it will drive them away as daylight will banish darkness—of this there can be no doubt those who try it for it can be convinced with every dose taken Another evidence is the thousands of certificates from those who use it or have been cured by it Try one bottle—it does not benefit then we are mistaken
